

PROPRIETOR.

NO. 39.

the democratic ticket. Its success

THIS PAPER may be found on file at Gov. F. Roosevelt & Co's Newspaper Advertising Bureau (70 Nassau St.), where advertising contracts may be made for it. **IN NEW YORK.**

The waco Telephone prints an account of another cutting affray in a bar-room. It is a fact worth knowing bearing that most of the deadly affrays of the times occur in drinking saloons, or among men in a state of intoxication. —Galveston News.

these men for services, often poorly performed, or not performed at all, is being used in vast sums with the knowledge and presumed sanction of the administration to control the elections; and even members of the cabinet are strolling about the country making partisan speeches instead of being in their departments at Washington discharging the public duties for which they are paid by the people. But with all their cleverness and ability, the discriminating public will no doubt perceive that their paramount hope and aim is to keep themselves or their satellites longer in office, and that perpetuating the power of chronic federal office holders four years longer will not benefit the millions of men and women who hold no office, but earn their daily bread by honest industry. That the discerning public will, no doubt fully understand a

consisting of gold and silver and paper convertible into coin, will be maintained. The labor, manufacturing, commercial and business interests of the country will be favored and encouraged in every legitimate way. The millions of our people will be protected from the destructive competition of the Chinese, and, to that end, their immigration to our shores will be properly restricted. The public credit will be scrupulously maintained and strengthened by strict economy in public expenditures and the liberties and property of the people will be protected by a government of law and order, administered strictly in the interests of all the people, and not of corporations and privileged classes. I do not doubt the discriminating justice of the people and their capacity for intelligent self-government, and, therefore, do not doubt the success of

renewed. The question of seed is a very important one, and we trust our intelligent farmers will make close observations and give the readers of the *Express* the results of their experiments. A considerable quantity of corn was raised in this section the last season from northern seed, and it was very fine. We would advise those raising it to save it for seed next year, or as much of it as possible, as there will no doubt be a large demand for it next planting season, and it will command a much higher price than native corn. A little care in selecting only the best ears for seed would well repay farmers for their trouble. No strain from gibbous or the tips of ears should be planted.—*San Antonio Express*.
